

# NOW is the time

The Regional Center for Advanced Manufacturing (RCAM) is Northeast State Community College's primary off-campus facility for educating and training a qualified workforce for the region's manufacturing sector. And, there's never been a better time for companies of all sizes to take advantage of RCAM's sponsored apprenticeship programs. Backed by Northeast State and the U.S. Department of Labor Office of Apprenticeships, RCAM provides registered apprenticeships in partnership with regional employers to build the 21st-Century Workforce.

## Start building the 21st-century workforce today.

# RCAM Group Apprenticeship Programs

A turn-key solution  
for 21st-century  
workforce development.

## How it Works

Providing registered apprenticeship training for your company is simple. The first step is to become an Authorized Training Agent (ATA). RCAM guides you through the entire ATA process by equipping you to deliver relevant on-the-job training for qualified employees. RCAM provides the structure and administration. This partnership delivers a highly competent, trained, and productive workforce—certified by the US Department of Labor.

In selected programs, RCAM can award industry-recognized credentials through The National Center for Construction Education and Research (NCCER) in addition to a DOL Certificate of Completion.

## The Future is Here

RCAM's apprenticeship programs are designed to meet the growing demands for an increasingly specialized workforce. Our flagship Mechatronics Technician apprenticeship is just the beginning of a growing list of future programs including:

- Process Technician
- Electromechanical Technician
- Industrial Electrician
- Precision Machinist
- CNC Operator
- HVAC Technician

*“Having a robust pipeline of talented workers is tied directly to Eastman's ability to innovate and compete in the global marketplace. RCAM is a key partner in our region's strategy to develop a world-class industrial workforce.”*

*—Cari Parker, Vice President  
of Manufacturing, Eastman*
